

**The Estuary Bridge Planting Project** aims to redevelop both sides of the planned noise wall to replant an environmentally friendly wildlife habitat on the residential sides of the wall and support the creation of an art project along the road side.

**In partnership with:**

- Waterside Residents Association
- Mandurah Environment & Heritage Group

and in consultation with the City of Mandurah

Part of the Noise Abatement Wall Campaign run by Waterside Residents Association

Falcon, WA 6210

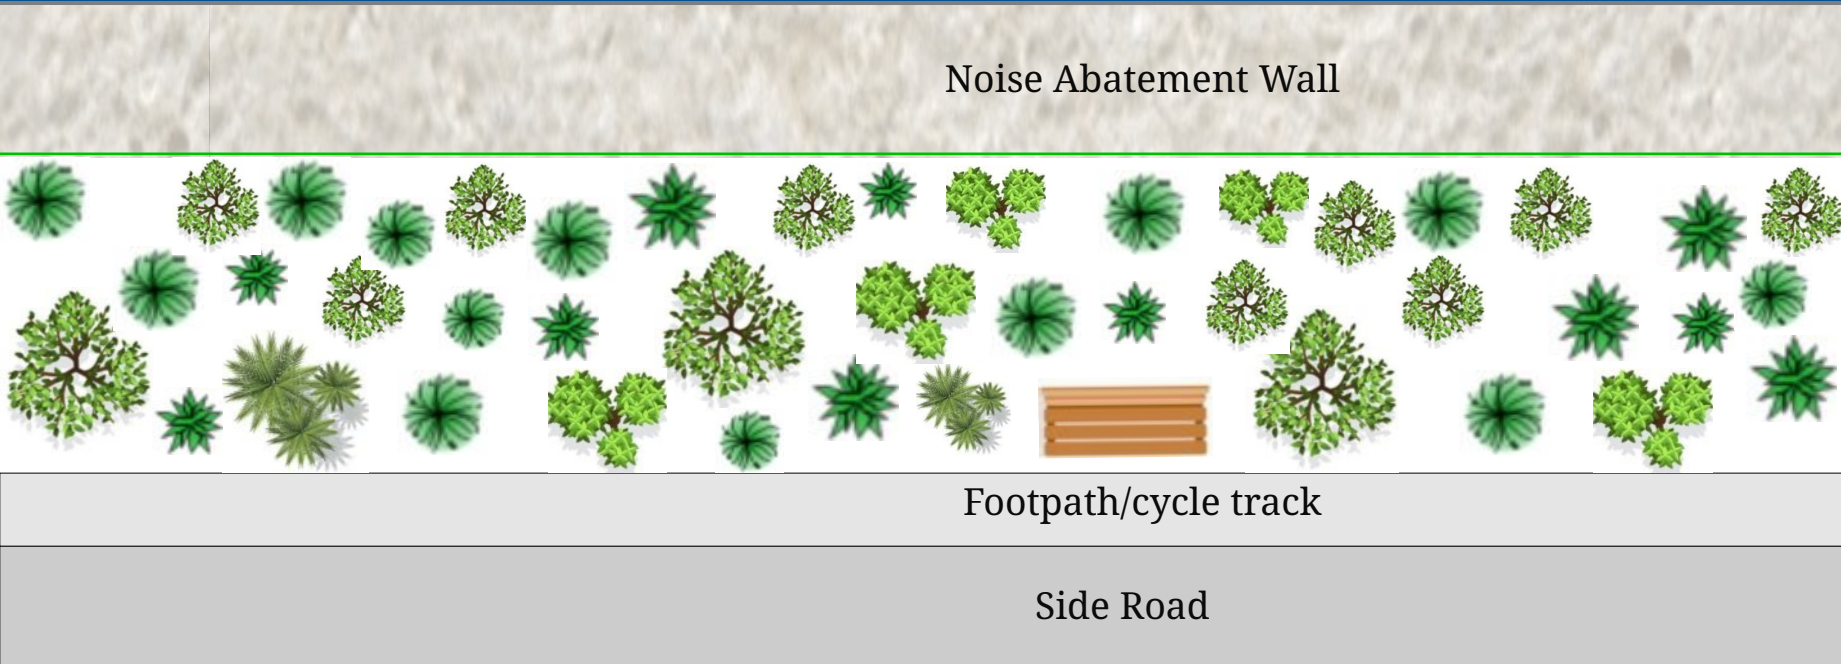

*“.. an amazing opportunity to rejuvenate and improve the wildlife habitat around the Estuary Bridge”*

Waterside Residents Association

Mandurah Road

- Example Planting List:**
- Red Bottlebrush
  - Fiery Bottlebrush
  - Swamp Sheoak
  - Marri
  - Red Flowering Gum
  - Tuart
  - Red Cap Gum
  - Long-Flowered Marlock
  - Coral Gum
  - Prickly Grevillea
  - Spider Net Grevillea
  - Honey Myrtle
  - Crimson Kunzea
  - Pincushion Hakea
  - Sea Urchin Hakea
  - Pine Leaved Grevillea

Planting of trees and native plants will provide an ideal environment for local wildlife while the presence of the noise wall provides valuable protection from predators and traffic.

With the guidance of environmental specialists, City of Mandurah, local knowledge holders and others, we can create a beautiful landscape that raises the spirits of those who pass by and provides long term benefits for the community.
